SUPERVISOR TAYLOR APPLAUDS COUNTY BOARD DECISION TO ENHANCE CRYSTAL RIDGE

Milwaukee, WI – The Milwaukee County Board of Supervisors voted today to approve the lease of County-owned land surrounding and including what is currently known as Crystal Ridge, enabling a newly proposed development on this location by Rock Sports Complex, LLC to move forward.

The Board granted the developer a long term lease agreement to install athletic fields and related amenities within the existing Crystal Ridge property. The improvements, estimated at up to \$3.5 million, include twelve baseball/softball fields and adjacent parking. Milwaukee County funds will not be used for construction or operation of these improvements.

“As a County Supervisor representing Franklin, and as the President of the Franklin Common Council, I wholeheartedly welcome this new development. This agreement further enhances the quality of life for our residents and benefits our community by adding a new revenue stream,” said Supervisor Taylor. “I salute my colleagues for making an informed and correct choice on this important item for the residents of Franklin and Milwaukee County.”
